SKILLS

FRONTEND

- React.js
- JavaScript ES6+
- HTML5
- CSS3
- Responsive Design
- Mobile-First

BACKEND & DB

- Node.js
- Express.js
- MongoDB
- REST APIs

TOOLS

- Git
- GitHub
- VS Code
- Netlify
- Dev Tools

STRENGTHS

- Problem Solving
- Creative UI Thinking
- Attention to Detail
- Team Collaboration
- Continuous Learning
- Adaptability

Aspiring Full Stack Web Developer currently pursuing a Bachelor's in Computer Science Engineering. Experienced in designing and building responsive, user-centered web applications across the **MERN stack**. Passionate about clean code, thoughtful architecture, and crafting digital experiences that are both functional and refined. Driven by curiosity and a disciplined commitment to continuous growth.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Coursework in algorithms, data structures, software engineering & modern web technologies.

In Progress

PROJECTS

Personal Portfolio Website

HTML5 · CSS3 · JavaScript · Netlify

- Engineered a glass-aesthetic portfolio from scratch — translating design concepts into production-ready, performant HTML/CSS/JS.
- Integrated browser Geolocation API for a real-time contextual clock, demonstrating practical API consumption skills.
- Resolved mobile scroll-lag, optimized touch interactions, and ensured full responsiveness across all device viewports.
- Deployed to production via Netlify; publicly live at rawin-r.netlify.app.

Frontend Practice Projects

HTML · CSS · JavaScript · React.js

- Built a series of UI-focused mini-projects sharpening layout systems, component architecture, and responsive interface patterns.
- Applied mobile-first principles, modern Flexbox/Grid, and reusable component design throughout each build.
- Strengthened cross-browser debugging and frontend performance optimization through iterative development cycles.

Full Stack E-Commerce Application

React.js · Node.js · Express.js · MongoDB

- Architecting a complete MERN-stack platform with product catalog, shopping cart, and order management features.
- Designing RESTful APIs for seamless frontend-backend communication; integrating MongoDB for dynamic data persistence.
- Engineering secure JWT-based authentication, role-based authorization, and clean component-driven architecture throughout.

CURRENTLY LEARNING

- Advanced React.js
- Backend Architecture
- REST API Design
- Database Design
- App Scalability
- Full Stack Patterns
- Modern JS Practices
